Background

ESAFS conference is a series of scientific meetings organized every two years to share updated experience and knowledge among soil scientists all over the World, particularly within East and Southeast Asia countries. It is also a platform to promote Research & Development and disseminate the acquired knowledge and technology related to soil sciences. This series of ESAFS's conference are organized to fulfill part of the above aims, rotates within member countries thus allowing equal participations of local soil scientists and fair site information exchange. Following the highly successful previous conferences held in Bangkok, Thailand (ESAFS 2017), Taipei, Taiwan (ESAFS 2019), Kuala Lumpur, Malaysia (ESAFS 2022), ESAFS 2024 will be held in Thai Nguyen city, Vietnam from March 26-29, 2024. ESAFS 2024 is the first time for Vietnam as an organizer.

Thai Nguyen University (TNU), in collaboration with Vietnamese Society of Soil Science (VSSS) will organize the 16th International Conference of the East and Southeast Asia Federation of Soil Science Societies (ESAFS 2024). It will be held at Thai Nguyen University's Convention Center, on March 26-29, 2024.

ESAFS 2024 Theme: Healthy Soils for Sustainable Development

Symposium Objectives

- To share invaluable experience and knowledge among soil scientists all over the World, especially in East and Southeast Asia countries.

- To promote active participation of member societies and networking.

- To contribute towards sustainable development in the region through harmonization of agriculture and environment.
